C	Important to street/groups	good	fair	poor	bad
D	Insignificant/detrimental	good	fair	poor	bad

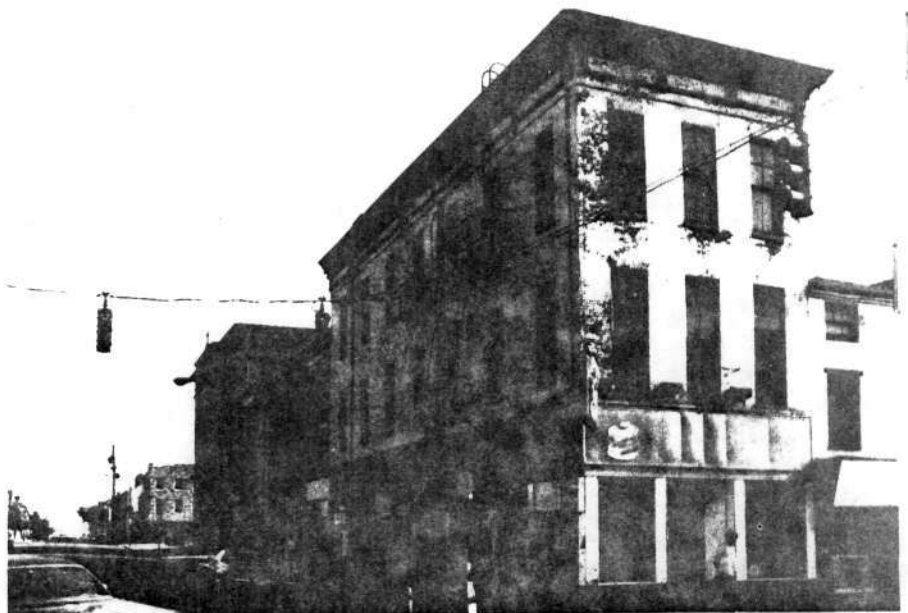

Notable features:

Recommend for rehabilitation as housing above, shop below. This is a pleasantly proportioned building with long, narrow windows set relatively close together. Modern shop front could be removed.

A two story dwelling with attic appears this site 1839-1840. It was presumably replaced by this building as the street grew in commercial importance.

Environmental context:

Baltimore Street commercial strip which has degenerated badly in recent years; street needs a realistic plan for a mix of commercial and residential. Street is two-way and should remain so. Standing trucks should be gotten off. Boarded up windows and fronts need to be opened up and new uses put in, along with refurbishing of buildings.
